

Mission Certificate

PRESENTED TO

AAC Research Team

IN RECOGNITION OF YOUR EXCELLENT AND DEDICATED WORK THAT CONTRIBUTED GREATLY TO THE REALIZATION OF THE VIREO MISSION.

C3S received support through the call for market-driven research, development, and innovation projects (2019-1.1.1.-PIACI KFI) issued by the National Research, Development and Innovation Office. The support was granted for the "Development of high-performance onboard computer hardware with artificial intelligence support, integrable into small and large satellite environments" project in consortium with the automotive company aiMotive. The mission was launched in April 2023.
